☎ +7972742879 ✉ rajputdhiraj1010@gmail.com 📠 dhiraj-rajpud- 🌐 dhiraj-rajpud 📍 Pune, India

## SKILLS

**Programming Languages :** Python, C++, C, JavaScript, TypeScript, PHP, Java, Go  
**Frameworks & Libraries :** Flask, React, Angular, Vue, Django, Express, Spring, Next.js  
**Tools & Platforms :** Docker, GIT, GitHub, Wordpress, Figma  
**Databases :** MongoDB, PostgreSQL, Cassandra, Postgres  
**Soft Skills :** Proactive, Results-driven, Logical Thinker, Effective Communicator, Adaptability, Problem Solving, Critical Thinking  
**Languages :** Hindi, English, Marathi

## PROJECTS

### RIFT A Remote Intrusion Framework Tool Jan 2023 - Present

- **Developed** a coding contest leaderboard that aggregates submissions and generates real-time rankings.
- **Implemented** background processing for scoring and updates using **Celery** and **Redis**.
- **Designed** APIs for contest creation, problem assignment, and live standings with secure admin controls.
- **Improved** reliability by adding retries, idempotent updates, and structured logging for debugging.

**Technologies / Tools Used :** Go, MySQL, React, Django, RESTFul

### Neo-Analytics | 🌐 Dhiraj-rajpud- 🌐 Dhiraj-rajpud Jan 2023 - Present

- **Developed** a coding contest leaderboard that aggregates submissions and generates real-time rankings.
- **Implemented** background processing for scoring and updates using **Celery** and **Redis**.
- **Designed** APIs for contest creation, problem assignment, and live standings with secure admin controls.
- **Improved** reliability by adding retries, idempotent updates, and structured logging for debugging.

**Technologies / Tools Used :** NASA NeoWs API, Apache Kafka, Apache Spark, TimescaleDB, Grafana

### Omniscient Jan 2023 - Present

- **Built** a REST-based task management app with role-based access, enabling teams to track work across projects.
- **Used Django REST Framework** for APIs; created a clean UI with **React** and **Tailwind CSS**.
- **Added** JWT authentication, pagination, filtering, and search to improve usability at scale.
- **Optimized** key endpoints using query tuning and indexes, reducing average response time.

**Technologies / Tools Used :** Django, React.js, LLaMA, Python, Node.js, MongoDB, REST APIs, WebSockets

### Quiz Portal Jan 2023 - Present

- **Built** a REST-based task management app with role-based access, enabling teams to track work across projects.
- **Used Django REST Framework** for APIs; created a clean UI with **React** and **Tailwind CSS**.
- **Added** JWT authentication, pagination, filtering, and search to improve usability at scale.
- **Optimized** key endpoints using query tuning and indexes, reducing average response time.

**Technologies / Tools Used :** React, Node.js, Express, MongoDB, Tailwind CSS

## EDUCATIONS

**Dr. Vishwanath Karad MIT WPU** Aug 2023 - Present  
*BTech CSE (Cybersecurity and Forensics)* CGPA : 8.89

**Smt. Chandibai Himathmal Mansukhani College** Jun 2021 - May 2023  
*Class XII (Board)* CGPA : 85.50%

**RCT'S P.M.M. Rotary School, Ambernath** Jun 2020 - May 2021  
*X | SSC* CGPA : 95%
